2020-2023  
status:not completed

## LANGUAGES

**ENGLISH,MALAYALAM(native)**

## PROJECTS

### PERSONAL PORTFOLIO

- Built a responsive personal portfolio using React with reusable components.
- Designed a clean, interactive UI with smooth navigation and animations.
- Showcased projects, skills using modern React practices.
- Optimized performance and ensured cross-device compatibility.

### BUS BOOKING WEBSITE

- Fully responsive user interface optimized for mobile, tablet, and desktop devices using modern tailwind CSS and flexible layouts.
- Real-time bus search and seat availability powered by a MERN stack (MongoDB, Express, React, Node.js).
- User authentication and secure booking flow, including login, seat selection, and booking confirmation.
- Intuitive and fast UI experience with reusable React components and optimized API integration.
- <https://anees-al.github.io/busbooking/>

### BILLING SOFTWARE

- Developed a full-stack Billing Software using the MERN stack (MongoDB, Express.js, React, Node.js) to manage products, customers, and invoices efficiently.
- Implemented product and inventory management, enabling real-time stock updates after billing and reducing manual tracking errors.
