SKILLS

- **JavaScripct: React. JS, Node.JS, Typescripct, Express.JS., asynchronous programming**
- **Database : Mongoose, MongoDB**
- **Version control: Git, GitHub**
- **Styling tools: CSS3, Tailwind CSS, Bootstrap**
- **Testing tool: Postman**
- **Responsive Design**
- **Programming Language: Javascripct, C, C++, Java ,Python**

EDUCATION

CENTRAL POLYTECHNIC COLLAGE THIRUVANANTHAPURAM

DIPLOMA IN MECHANICAL ENGINEERING

2020-2023

status:not completed

LANGUAGES

ENGLISH,MALAYALAM(native)

PROFILE

MERN Stack Developer experienced in building scalable, responsive web applications using **MongoDB, Express.js, React.js, and Node.js.** Skilled in developing **RESTful APIs,** implementing **JWT-based authentication**, and managing databases with **MongoDB and Mongoose**. Strong in **JavaScript (ES6+)**, performance optimization, and backend architecture, with hands-on experience using **Git/GitHub** and **Postman.** Committed to writing clean, maintainable code and continuously learning to deliver efficient, reliable solutions.

PROJECTS

MERN USER AUTHENTICATION

- Developed secure user authentication with JWT and bcrypt in MERN stack.
- Implemented signup, login, logout APIs and protected routes using middleware.
- Integrated role-based access control (RBAC) for users and admins.
- Built responsive React.js UI for authentication with form validation.
- https://github.com/Anees-al/MERN-Authentication

PHARMACY AND DOCTOR APPOINT BOOKING WEBSITE

- Developed a web-based platform for online pharmacy services and doctor appointment booking, improving accessibility to healthcare services.
- Implemented a real-time doctor appointment scheduling system with specialty-based search and availability management.
- Integrated an online pharmacy module allowing users to upload prescriptions, order medicines, and manage refills digitally.
- Designed a user-friendly interface to enhance patient experience and streamline healthcare interactions
- https://github.com/Anees-al/pharmacy-app

BILLING SOFTWARE

- Developed a full-stack Billing Software using the MERN stack (MongoDB, Express.js, React, Node.js) to manage products, customers, and invoices efficiently.
- Implemented product and inventory management, enabling real-time stock updates after billing and reducing manual tracking errors.
- https://github.com/Anees-al/billing-software
